Prevent Device Theft

Protect your device and yourself

• Keep your device close at hand. Don’t leave it alone, even for a minute.

• Put your device away when you’re not using it.

• Make your device look different than everybody else’s. Mark it with your name, phone number and a security tag.

• Record your MAC address and store it in a safe place. This is a unique number that will be helpful if your device is ever lost or stolen.
