

Getting Connected

Tips from Information Technology Services

Now that you are on campus, you can connect your computer or mobile device to one of the University's high-speed networks. **Please disconnect any hotspots while on campus.**

Go Wireless on AirOrangeX

To connect a computer or iOS device to AirOrangeX:

1. Choose AirOrangeHelp from your device's list of available wireless networks.
2. Navigate to aoh.syr.edu and follow the instructions.
3. If your computer is not automatically connected, choose AirOrangeX from the list of networks.

To connect an Android device to AirOrangeX:

Navigate to answers.syr.edu/aox for instructions.

ResNet for a Wired Connection

To connect to the wired residential network (ResNet), plug an Ethernet cable into your computer and the wall jack labeled "RN."

Cable Television

Charter Spectrum digital cable television service is provided in all residential facilities.

To configure a TV:

Connect a coaxial cable, set the TV to receive a cable or CATV signal, and run the TV's "auto program" or initial setup.

The SpectrumU app is also available in your browser as well as any Android or iOS device connected to campus networks. Learn more at its.syr.edu/cabletv.

Other Devices

Internet-connected devices with an Ethernet port such as gaming systems and streaming devices can connect automatically to ResNet. Unlike cell phones, tablets, and computers, other devices are not supported on AirOrangeX but can connect to the residential wireless network Gadgets&Games. Wireless printers are not permitted on campus networks and require a Bluetooth wireless connection or USB cable.

Getting Tech Help

If you need technical assistance:

- Call **315.443.2677**
- Email **help@syr.edu**
- Visit the ITS Service Center in room 1-227 Center for Science & Technology, through the double glass doors off the Milton Atrium. Find hours of operation and other information at **its.syr.edu/supportsvc**.
- Search **answers.syr.edu**

On the Map

Do you need help finding resources around campus? Head to **maps.syracuse.edu** for an interactive experience. You also can find bus schedule information at **subus.syr.edu**.

World-Class Technology at Your Fingertips!

Visit **answers.syr.edu** and search for “Information Technology Support” to learn about a range of available resources, applications, and services.

Orange students also enjoy the following benefits:

Blackboard

You can use your NetID and password to review all of your course content at **blackboard.syr.edu**.

LinkedIn Learning

You can access thousands of LinkedIn Learning courses at **linkedinlearning.syr.edu**.

Microsoft Office 365

Sign in at **portal.office.com** using your @syr.edu email and NetID password for free access to Microsoft Office 365.

Information and Data Security

To learn how to protect yourself against cybersecurity threats, please visit **its.syr.edu/infosec**.

MakerSpace: Your Creativity Lab

The MakerSpace features laser printers, 3D printers, and more. Learn more at **makerspace.syr.edu**.

Your Student Print Account

Learn more about printing services, including your annual academic credit, at **its.syr.edu/printing**.
